EMMANUEL KIPNGENO

System Administrator

Tel: +254 701 050 046 | Email: immanuelkipngno7387@gmail.com | GitHub: github.com/Emmanuel-kipngeno

PROFESSIONAL SUMMARY

System Administrator with three years of hands-on experience in cloud infrastructure, server administration and secure application deployment. BSc Information Technology graduate (JKUAT), Cisco-certified, and 2nd place globally in the Huawei ICT cloud computing competition. Methodical and security-minded, with a record of keeping systems available, access controlled and users well supported. Comfortable working independently or within a team, communicating clearly with technical and non-technical colleagues, and learning new platforms quickly. Seeking to contribute to a security-focused engineering team where reliability, protection of client systems and continuous improvement are valued.

CORE SKILLS

Systems & Security: Linux and Windows server administration, user and access management, system hardening, patching and updates, monitoring, backup and recovery, incident response and troubleshooting

Cloud & Networking: AWS, Huawei Cloud, virtual machines, cloud storage, cloud networking and identity management, virtualisation, Cisco networking, TCP/IP fundamentals, load balancing concepts

Development & Automation: Full-stack web development, REST API design and integration, application deployment, Git version control, scripting for routine administration tasks

Professional: Technical support, user training, clear documentation, problem solving under pressure, teamwork and time management

PROFESSIONAL EXPERIENCE

System Administrator & Full-Stack Developer

Feb 2026 – Jul 2026

M-Taka

- Administered servers, cloud resources and internal systems, keeping services available and responding promptly to incidents and user requests.
- Managed user accounts, roles and permissions on least-privilege principles to protect company and customer data.
- Designed, built and deployed full-stack web features and REST APIs, applying sound authentication, session handling and input validation.
- Monitored system health and performance, ran routine backups and tested recovery to reduce downtime and data-loss risk.
- Applied updates and configuration changes carefully, and diagnosed application and infrastructure faults to find root causes.
- Documented configurations, deployments and procedures so support remained consistent across the team.
- Worked closely with the team lead and colleagues to prioritise tasks and deliver within agreed timelines.

System Administrator Intern

Apr 2025 – Sept 2025

Tech Savannah Technologies

- Supported daily administration of servers, networks and end-user systems in a client-focused technology environment.
- Created and maintained user accounts, network services and system updates to keep infrastructure stable and patched.
- Diagnosed and resolved hardware, software and connectivity issues, giving users timely and courteous support.
- Assisted with system monitoring, backups and security housekeeping under the guidance of senior engineers.
- Prepared clear documentation and handover notes, and learned enterprise administration practices and tooling on the job.

Cloud Computing – Global 2nd Prize Winner Sept 2023 – Jul 2024

Huawei Enterprise Technologies (Huawei ICT Academy)

- Completed intensive training in cloud computing, networking and enterprise ICT infrastructure.
- Placed 2nd globally in the Huawei ICT competition against international teams, demonstrating strong cloud and problem-solving skills.
- Gained hands-on experience deploying and managing cloud services, virtual networks and virtualised environments.
- Learned to design cloud solutions with attention to availability, scalability and security.

EDUCATION

BSc Information Technology Sept 2022 – Aug 2026

Jomo Kenyatta University of Agriculture and Technology (JKUAT)

- Completed August 2026. Earned a Cisco certification as part of the degree.
- Coursework and projects covering networking, systems, software development and information security foundations.

TRAINING & CERTIFICATIONS

Cisco Certification (JKUAT) 2022 – 2026

Microsoft AWS Training Sept 2024 – Mar 2025

Software Engineering – Moringa School Nov 2023 – May 2024

Cloud Computing – Huawei ICT Academy Sept 2023 – Jul 2024

KEY ACHIEVEMENTS

- Placed 2nd globally in the Huawei ICT Academy cloud computing competition.
- Completed a full IT degree while gaining professional experience in systems administration, cloud and software development.
- Combined Cisco, AWS and Huawei cloud training with real-world administration experience by 2026.
